

**Scheduled Maintenance:**

This site will be undergoing scheduled maintenance on Friday, Feb 7; CET – 9:30 PM to 11:30 PM; IST – 2:00 AM to 4:00 AM (Saturday, Feb 8); EST – 3:30 PM to 5:30 PM; GMT – 8:30 PM to 10:30 PM. During this time, some functionalities may be limited. We appreciate your patience and understanding.

CONTROL PANELS

MPA2 And MPA4 Door Access Control Solution

MAXPRO Access MPA 2 or 4 door access control panels enable users to securely manage their system anywhere there's an Ethernet / Internet connection – with no dedicated PC or software costs.

Overview

Feedback

MAXPRO® Access MPA2 or MPA4 access control panels enable users to securely manage their system anywhere there's an Ethernet/Internet connection—with no dedicated PC or software costs. The user-friendly design (Push-in connectors and RJ45 'Click 'n Done' approach) makes it simple to install and easy to operate and maintain.

The MPA Door Controller gives you all the benefits of traditional access control, such as helping you secure doors, manage employee access, and manage sites remotely. It also lets you pull reports easily to meet compliance requirements. With a browser-based interface, your learning curve and training times are significantly decreased. No dedicated software is required—simply log on and you're ready to go, securely—from the office or anywhere.

You can manage MPA using the embedded browser, MAXPRO® Cloud's secure cloud infrastructure, or WIN-PAK®'s integrated security suite.

MAXPRO® Access MPA has been developed with an installer-friendly design that easily adapts to existing IT infrastructure and methods, reducing installation and support costs. So as your system grows, MPA2 grows with you.

Features & Benefits:

- Cloud / Web / WIN-PAK solution
- Structured cable installation
- End-to-End Secure (via OSDP)
- Retrofit for existing installations (Wiegand)
- Fire trigger setup and notification
- Centralized installation OSDP)
